## **CTEK NJORD GO TOPS AFTONBLADET TEST**

CTEK AB, a leading global brand in vehicle charging solutions, is pleased to announce that its NJORD GO product has topped a recent Aftonbladet test, looking for the best Electric Vehicle (EV) chargers.

Aftonbladet's comparative product test was undertaken on two different EVs, namely a BMW i3 and a Hyundai Kona, and featured 9 different brands including CTEK, DEFA, Easee and Charge Amps. NJORD GO performed well in all categories, scoring highly for functionality, useability and value for money.

Technical expert Peter Pettersson of Aftonbladet, who ran the tests, said, "NJORD GO is without a doubt the best solution for those who want to be able to use a charger in several different places, at home, in the holiday or country home, or perhaps in the ski cabin."

NJORD GO is a durable, lightweight, and portable all-in-one EV charger, developed to deliver fast and reliable EV charging wherever and whenever needed. Available with a type 2 connector, with a charging capacity up to 11 kW, this portable and durable 3-phase unit needs to be simply plugged into a domestic or commercial CEE socket – it can be supplied with a wall-mount too for a more permanent installation. Moreover, the charger can be used with the free-to-download CTEK App. The App gives full Bluetooth® wireless technology and WiFi control over charging and scheduling for maximum flexibility.

Cecilia Routledge, Global Director for EV at CTEK, said, "We are determined to harness the best of technology to develop groundbreaking chargers that simplify life for motorists. NJORD GO takes all the hassle out of charging an EV whether at home, at work or even on vacation."

"We are really proud of the result and delighted that Aftonbladet has recognised the useability and value for money that NJORD GO provides users. The test results bear testimony to CTEK's dedication to developing smart, safe, and sustainable EV chargers, that support next-generation mobility." Cecilia continued.

Aftonbladet is a Swedish daily newspaper published in Stockholm, Sweden. It is one of the largest daily newspapers in the Nordic countries, winning numerous prestigious journalistic prizes through the years.
